### **[Can't su with space in password](#)**

by [gakkfar](#) » Mon Apr 05, 2010 11:33 am

Hi, I discovered that I get an error when "su"ing if the root password has spaces in it. Does anyone know why?

I can log in to the web interface without problems, but not ssh->su->root  
Thanks for your help!

Hi,

*gakkfar wrote:*Hi, I discovered that I get an error when "su"ing if the root password has spaces in it.

Thank you.  
Yes, it's a older bug. Confirmed. I will fix.

Regards,  
Daisuke Aoyama

Thanks a lot for following up this.

I use long phrases for passwords for privileged accounts, so I need my spaces 😊

Is this a bug in FreeNAS or something that stems from FreeBSD?

Yes, it's a good choice.

*gakkfar wrote:*Is this a bug in FreeNAS or something that stems from FreeBSD?

It is FreeNAS only. I fixed at 5113. Also I uploaded it to nightly build. You can try nightly build 5113 now.

Thank you very much!  
Sorry for being a newbie 😊
